

GCU

An Independent Comparative Report

Prepared by Standard Analytical Service, Inc.

Analysts of the Insurance Industry since 1932

The financial condition of a life insurance organization is an important element in public confidence. In this regard we believe the fundamental factors listed below are significant.

The following is a Comparative Analysis of these basic factors, comparing
GCU

with 25 of the leading life insurance companies in the United States issuing insurance to the general public. Since these 25 companies have an average of over 100 years of life insurance experience, and own a major portion of the invested assets and life insurance in force of all the companies, a favorable comparison of these factors can be indicative of financial stability.

BASIC SIGNIFICANT FACTORS - AS OF DECEMBER 31, 2018

Derived from the Annual Statement

(The Companies listed below are 25 of the leading by the amount of Admitted Assets)

SOLVENCY

A wide margin of Assets over Liabilities can be a significant safety factor. This indicates financial soundness and a Company's ability to meet all obligations as they become due.
