

Weather Policy

What if it rains?

Kennywood has detailed safety measures in place in the event of inclement weather. Safety is our top priority in everything we do, and so rides and attractions can and do close if the weather conditions become poor. While most rides can operate even in steady rain, rides will close when lightning is in the vicinity of the park. Sometimes it can look beautiful here, but if there are lightning strikes being tracked nearby, large rides such as our roller coasters may close until the weather cell has moved out of range. Please know we will open attractions as quickly as possible but will not compromise on the safety of our Guests and Team Members. High winds and low temperatures can also lead to rides closing for part or all of the day.

Kennywood will review on a case-by-case basis for picnics and tickets if it rains.
