

*I began the volunteer work as altar server for liturgies in 2014. This work require focus and time management in order to have smooth liturgy. Regardless of moving to different church at some point, I have collected over 500 hours of altar serving. The following picture shows me in altar server attire during the liturgy. This was taken at church in Tarentum.*

*Church hosts nut roll sales, where I help whenever possible. This project sells poppy and apricot rolls along with nut rolls. This volunteer work provide opportunities to fill different roles on different occasions. I started to help this project in 2015. Picture shows me pulling out rolls from oven after cool down to warm temperature.*

*I have recently started to help with cleaning the church. This volunteer work prove to be exhausting. Despite it, there is a sense of reward after completing the work. The year of 2023 marks the first year since the start. Picture shows me cleaning the tile floor of church hall.*

*Being a cantor is something that seem easy, until actually trying it. It requires focus and good singing to see liturgy going smooth. I picked up this activity recently as well, in beginning of 2023.*
