

## Cincinnati Animal CARE Shelter

This cat spent her 9th birthday with me and we celebrated her adoption the same day!

## Clean Up Our Parks

The CARE Center is a no-kill animal shelter that I volunteer at in Cincinnati. Here I walk the dogs, facilitate foster meets, make toys, clean cages, and interact with the animals to help them with their interaction skills for adoption!

Pictured below is from CUFNA Spring Clean Up Days to restore the parks of Cincinnati. Each spring we put new mulch down, weed, and pick up garbage to encourage people to go to the parks and to do our part for the environment.

## Dance To Enhance

I also volunteer my time at the Cleveland Foodbank. Pictured below is when I spent time sorting and packaging food parcels to give to families in need. I've volunteered directly at their warehouse for sorting food pallets and distributing parcels with their DoorDash program for the elderly in the surrounding area.

I am a part of Dance To Enhance, a community outreach dance organization, at the University of Cincinnati. We teach children in the Greater Cincinnati Area dance classes and use our love of dance to bring joy to others! Here I am pictured (above) with my group at our performance/dance class at the Ronald McDonald House.
