

I have been helping out at the local fire department since middle school. My entire family are volunteer firefighters, and while I haven't suited up myself, I enjoy volunteering at events and helping clean every Sunday.

I volunteered as a tutor at my high school for many years, and have continued to do so in college. I enjoy helping students reach their full potential!

I organized and ran a program at Penn State DuBois to collect clothes, food, and supplies for foster children with Jefferson County CYS. My hope is that we were able to establish faith and hope into these kids with our act of kindness!

I recently started volunteering as a softball coach for my local minor league program. I enjoy interacting with all the girls and passing on the love of sports I've had my entire life.

Of all my volunteer projects, helping my grandmother at her church events has been one of my favorites. I help her set up church events, such as dinners, sales, and so on.
