

I am a part of the GCU Go Give project that benefitted the Trinity Presbyterian Church's Breakfast Club in Clarksburg, PA. And from March to October, we do spaghetti dinners. In this photo, my sister (black sweatshirt) was putting the deserts in containers, while I (green sweatshirt) was prepping the salad. We use these spaghetti dinners as fundraisers to raise money for trips with the Breakfast Club and to help fix problems the church has.

In 2022, I joined my local fire department because I wanted to give more back to my community. It has been a fun experience going on calls, going to the trainings, and driving in parades. In the photo on the left, I (orange hat, dark blue shirt) was explaining how we open locked car doors that are locked due to an accident. In the bottom photo, it is a photo of me in my gear going to the fire trucks for a fire call.

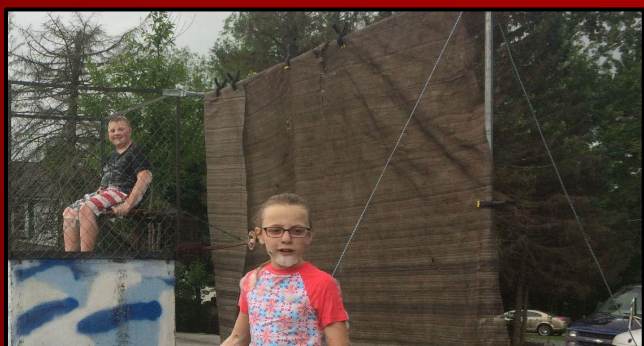

In 2019, We helped fundraised for the Epilepsy Association of Western/Central Pennsylvania. We help fundraise with them due to my sister having Epilepsy. In this photo, they had a Marathon and I helped out with directing the runners. This was a very fun experience and we continue to support the foundation to help support people with Epilepsy.

As a member of the IUP "The Legend" Marching Band Drumline, we have adopted a Highway Litter Control spot on the side of I-19 between Homer City-Indiana/Wayne. Every year, they go to their strip of highway and clean up for community service. In this photo, we just finished cleaning up the litter. We had a total of 24 of 28 drummers come and clean up litter.

I am a freshman at Indiana University of Pennsylvania and I participate in the University's Marching Band. This band is very prestige due to the talented musicians they have/create with this band. Every friday night during high school football season, we go to a local high school and play with the high school marching band to teach them what we know about the instruments we play. This is completely volunteer work. In this photo, I (Blue headphones for ear-protection) was showing some of the cymbal players some tricks with cymbals.

In the town of Saltsburg, every first weekend of June, they celebrate a small festival called Canal Days. The Breakfast Club from the Trinity Presbyterian Church in Clarksburg participates in this festival by setting up a dunk tank. We use this time to fundraise for the church and the breakfast club. In this photo I am in the dunk tank to help fundraise

As someone who loves the outdoors, fishing, and hunting, love the outdoors. And every March, the local creek stock trout for the upcoming trout season in April. In this photo, I volunteered last March to help stock the creek with tons of trout. I want the creeks around me to have a really good ecosystem for healthy fish.
