

For my Eagle Scout project, I organized and saw to completion the renovation of our church Youth room, which had been damaged by water, and built new shelving for confirmands and Sunday school youth to place their learning materials and Bibles.

Scouting has also enabled me to volunteer in the community in many ways, honoring Veterans, cleaning trash from roadways, serving dinners to benefit local shelters, and participating in fellow Eagle Scout projects to better various needy causes.

I have supported various ministries at my church by serving as a youth usher, collecting home goods for refugees, collecting food for local pantries, and collecting and delivering personal care items, meals, and food to the men's shelter of Northside Common Ministries.

I continue to serve at college, taking part in my fraternity's annual Walk-A-Thon to benefit Children's Hospital of Pittsburgh, participating in the fully student-initiated Environmental Club recycling program at Thiel College, and engaging in trash clean-up activities in the local Greenville area.
