

**Location:** Prime Tower Nursery and Primary School, Bukedea, Uganda.

At Prime Tower, I assisted in performing health assessments on the children. I also distributed sports equipment, snacks, and medical supplies.

**Location:** Okut, Uganda

We spent 8 hours in this remote village performing health assessments, administering medication, and dressing wounds. With us we brought 17 suitcases filled with medical supplies to stock the village pharmacy!

## Carlow University Medical Mission: Uganda 2023

**Location:** Kochecka, Uganda  
Clean water still isn't readily available to many Ugandans. My team and I raised money to fund the drilling of a clean water well for local villages. This is a photo of the drilling process!

**Location:** Kochecka, Uganda

This is a photo of the American and Ugandan nursing staff that was taken after a long day of treating patients.

**Location:** Noah's Ark School, Entebbe, Uganda

Noah's Ark is a school for disabled children of all ages who are often orphans. Although most of the children were unable to communicate with us, they sure loved giving hugs!

**Location:** Kochecka, Uganda

In this photo, my instructor is teaching me how to draw up and administer medication to a baby with persistent malaria.

**Location:** School for the Blind, Soroti, Uganda

I performed vision assessments on blind students to see if they were eligible for a pair of glasses. Amazingly, some of these children weren't truly blind, they just needed glasses.
